

TOGETHER SETTING THE STANDARD FOR CONTENT AND DIGITAL TRANSACTION MANAGEMENT

About DocuSign

DocuSign® is the Global Standard for Digital Transaction Management™. DocuSign accelerates transactions to increase speed to results, reduce costs, and delight customers with the easiest, fastest, most secure global network for sending, signing, tracking, and storing documents in the cloud.

Delivering business results

- Sales - Close more deals faster.
- Procurement/Supply Chain - Lock in pricing sooner to drive out cost.
- IT - Drive efficiency & reduce cost by automating paper business processes.
- HR - Turn a verbal "yes" into a signed offer in minutes.
- Legal - Increase control, visibility & compliance.

Introduction

Together we help customers accelerate the speed of business leveraging Egnyte Adaptive Enterprise File Services to edit, store and share content coupled with DocuSign to conduct accurate, secure transactions.

Transact business faster, reduce costs and delight customers

Documents play a crucial role in business. Sales contracts, new bank accounts, tax documents, loans and rental agreements and more all require documents to complete the transaction. Egnyte allows collaboration within and outside of organization to create, edit, share and store these documents. DocuSign accelerates these often manual, paperbased processes by helping companies complete them online from start to finish. The joint integration between Egnyte and DocuSign can securely automate workflow, collect information, take payment, and let you sign everything, everywhere so you can transact business faster, reduce costs, and delight customers.

The world's leading Enterprise File Services solution

Egnyte is the industry-first provider of Adaptive Enterprise File Services that uniquely anticipate IT and end-users' needs to securely, easily and intelligently share content stored on-premises or in the cloud. Egnyte's award-winning platform integrates with many cloud, storage, device, and business applications to enable customers to optimize their file-sharing environments through secure access, centralized control and unified visibility. Egnyte enables IT to make informed decisions and optimize infrastructure utilization and workflows. End users benefit from an optimized and unified user experience regardless of the application or device they choose.

How does DocuSign Works

Easy to Send

Easy to Store

✓ Your signed documents were submitted successfully.

The world's leading eSignature and Digital Transaction Management solution

Established in 2003, DocuSign is the pioneer in electronic signatures and the world's leading digital transaction management solution. With more than 50 million customers, DocuSign serves more individuals, small and medium businesses and U.S. Fortune 1000 companies than any other service provider. Employees at 99 of the U.S. Fortune 100 have used DocuSign to accelerate the speed of business. Why? DocuSign improves business results by managing all aspects of documented business transactions in the cloud, connecting companies of all sizes to their customers, partners, suppliers and employees so they can transact business in confidence.

Faster & easier

No software, hardware or training is required. Conduct business with customers, partners and suppliers anytime, from any Internet-connected device—so it's convenient for everyone.

Complete & extensible

Automate simple agreements or the most complex multi-party transactions. Our open, standards based approach makes it easy to connect to your existing business systems. No more printing, faxing, overnight shipping, or re-keying data.

Trustworthy & secure

Documents are encrypted and stored tamper-proof in the cloud, ensuring integrity during the transaction process and after completion.

- ISO/IEC 27001:2005 Certification
- Track record of 99.99% system availability
- Enterprise class SSAE 16 tested data centers and solution
- Legally binding with court-admissible audit trail
- Multiple signer authentication options

Standards-based integrations

DocuSign integrates with existing systems to make it easy to automate transactions end-to-end. Our open, standards-based approach, robust Application Programming Interface (API), and packaged integrations from DocuSign as well as hundreds of third parties shorten the time to realize business value with DocuSign.

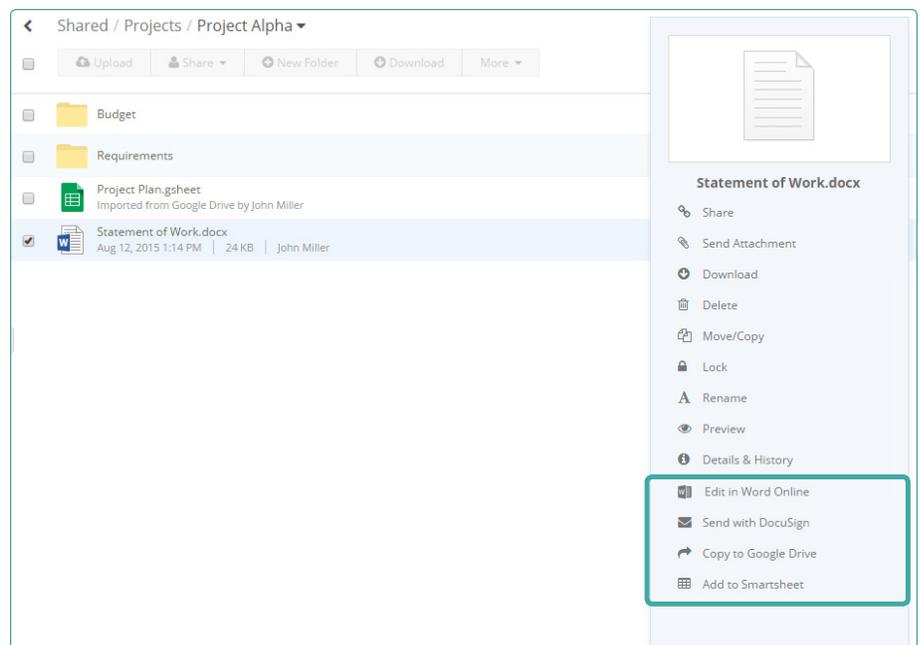

eSignature legally binding with U.S. ESIGN Act

In 2000, the U.S. Electronic Signatures in Global and National Commerce (ESIGN) Act established electronic records and signatures as legally binding, having the same legal effects as traditional paper documents and handwritten signatures. But not all eSignature solutions are created equal.
