

Salesforce is an Essential Tool for Expediting Sales Processes, Managing Customers and Prospects Engagements

With Egnyte for Salesforce®, teams can use Salesforce to securely access, collaborate, edit, and share files and folders directly within Salesforce. This increases collaboration and responsiveness, streamlines operations, and facilitates more meaningful customer engagements.

Centralized view
for customer content and
account management

Single interface
to share files within
Salesforce

Access customer
files from
anywhere, anytime

Gain All of the Egnyte Capabilities in Your Salesforce Environment

- The full Egnyte web interface is easily embedded into your Salesforce dashboard

Access Files Where You Work While Still Maintaining Compliance and Security

- Whether it's within Salesforce, or on your desktop, web browser or mobile device, securely access the relevant document when and where you need it
- Don't compromise compliance and security to enhance productivity. Use custom or built-in policies to enforce cybersecurity best practices

Tight Integration With Third-party Applications

- Use e-signature tools to electronically sign contracts and other files within Salesforce
- Create, access, and collaborate on Microsoft 365 and Google Workspace documents from Salesforce

The Egnyte web interface is easily embedded into your Salesforce dashboard.
